**BEST BET: Race 8 - #2 Eila**

This mare has been so consistent, despite the fact that she hasn't seen the winners circle in a while. She gets a drop in class today after a bit of a troubled trip last time, where any momentum she had coming down to the wire was cut off late. She has natural early speed and should meet the right field today.

**LONGSHOT: Race 6 - #8 Colormepompom**

The big drop in class today looks to be key for this gelding, who, after his last couple of races, looks like he needs to run at a lower level. The last time he won was for a comparable tag. He has been freshened up since December 19 for Terri Pompay, who has had a very solid Championship Meet with a limited number of runners. This horse is tactical and well posted.
