BEST BET: Race 9 - #2 Impact Player

I know he'll be a very, very short price, but to me this looks like the most logical single in today's Rainbow 6 sequence. After a gritty win that earned him a 91 Beyer Speed Figure last time out, it seems like they have figured this horse out. He'll stay sprinting and make his second start with blinkers.

LONGSHOT: Race 10 - #4 Ferdinanda

There are a few things that make this filly appealing in the nightcap, not least of which is the price that she's sure to be. I like the move to trainer Barclay Tagg, and the drop in class to this high-priced maiden claiming level. She has some nice breeding to work with, being my Giant's Causeway and the half sister to multiple stakes winner Sweet Victory, one of her two siblings to win on the turf.
